### Ban Human Antibiotics in Livestock Feed

*I agree with you on this one*

Antibiotics used to treat human disease are consistently fed to poultry, cattle and pigs to speed their growth or counteract the effects of crowded living conditions and poor hygiene. mounting evidence shows that the routine use of human antibiotics in livestock may diminish the drug's ability to cure infections in people. The Food and Drug Administration has the responsibility to ensure that the use of antibiotics on factory farms does not endanger human health.

Call Jane Henney, the Commissioner of the Food and Drug Administration, at 301/827-2410 and tell her not to allow an antibiotic to be used in livestock feed if that antibiotic is used in human medicine. Or check the box below to send a CitizenLetter.

### Stop Oil Drilling on Sacred U'wa Land

The U'wa, a community of 5,000 Colombian Indians, are in a life and death struggle to protect their homeland from Occidental Petroleum. The indigenous tribe has threatened to commit mass suicide by leaping from a 1,400-foot cliff if Oxy drills for oil on their ancestral lands. The U'wa depend on their environment, an area rich in plant and animal life, for survival. Where oil companies have operated in neighboring regions, cultural decay, pollution and deforestation have followed. Why destroy their land when oil has never been cheaper or more plentiful?

Call Ray Irani, CEO of Occidental Petroleum, at 310/208-8800 and demand that he cancel Oxy's plans to drill on U'wa ancestral land. Or check the box below to send a CitizenLetter.

### California Action: Expand Family Rights
